Phonetics Flashcards Contents

- How to use these flashcards.
- Phonetics flashcards (symbols and information) ready to photocopy onto card.
- Blank Template to add or make your own flashcards.
- Contact details.

How to Use These Flashcards

1. The best way to use these flashcards is by doing the Phonetics Builder course and use them as you learn each English sound. Then use the flashcards for revision during and after the course.

<https://pronunciation.club/enroll/>

2. Print the flashcards onto white card. You have the option to print them double sided or single sided. Double sided means you will get the phonetic symbol of the front of the card and the information on the back of the card. Or to help you learn the sounds even more, only print the symbols and write the information on the back of each card.
3. If you don't have a printer you can make your own flashcards by copying the symbols and information onto white card.

How to Use These Flashcards

4. If you speak another language and have this sound in your language, you can write a word from your language that has this sound in the beginning of the word (or the middle or end). If the sound is not in your language highlight the sound with a marker, or another way of your choice, to remind you to be extra careful with this sound.
5. Now, hold all the cards in a pile with the front facing you. Look at the first card on the top.
6. Do you know this sound? If yes, put the card down beside you. If no, you can check the sound on this soundboard:

<https://pronunciation.club/soundboards/phonetics/>

Then put this card at the bottom of all the cards to repeat again later.

How to Use These Flashcards

7. Continue until all the cards are finished.
8. Revise all the cards each day, then once a week, then once a month to help you to remember all the sounds.
